Ruby

Commands

| | |
|----------------|------------------------------------|
| <Ctrl><Shift>V | Validate Syntax (ERB) |
| <Ctrl><Shift>V | Validate Syntax |
| <Ctrl><Shift>E | Execute Line / Selection as Ruby |
| <Ctrl>H | Documentation for Word / Selection |
| <Shift><Enter> | New Method |
| <Shift><Cmd>R | Run Focused Unit Test |
| <Cmd>R | Run Script |

Snippets

| | |
|-----------------------|---------------------------------------|
| forin<Tab> | for .. in .. end (forin) |
| inject<Tab> | inject object (inject) |
| reject<Tab> | reject element (reject) |
| select<Tab> | select element (select) |
| ife<Tab> | if .. else .. end (ife) |
| if<Tab> | if .. end (if) |
| case<Tab> | case .. end (case) |
| begin<Tab> | begin .. rescue .. end (begin) |
| class<Tab> | class .. end (class) |
| collecto<Tab> | collect element do (collecto) |
| collect<Tab> | collect element (collect) |
| def<Tab> | def .. end (def) |
| do<Tab> | do .. end (do) |
| doo<Tab> | do object .. end (doo) |
| eacho<Tab> | each element do (eacho) |
| each<Tab> | each element (each) |
| each_with_indexo<Tab> | each_with_index do (each_with_indexo) |
| each_with_index<Tab> | each_with_index (each_with_index) |
| | embed string variable |
| :<Tab> | hash pair (:) |
| <Ctrl>L | hash pointer |
| injecto<Tab> | inject object do (injecto) |
| {<Tab> | { variable .. } ({}) |
| rejecto<Tab> | reject element do (rejecto) |
| selecto<Tab> | select element do (selecto) |
| unless<Tab> | unless (unless) |
| when<Tab> | when |

Macros

| | |
|---------|----------------------------------|
| } | Overwrite '}' in #{ .. } |
| <Ctrl>{ | Toggle Single / Multi Line Block |

Rails

Commands

| | |
|------------------|----------------|
| <Opt><Cmd><Down> | Open Test Case |
|------------------|----------------|

Snippets

| | |
|------------|----------------------------------|
| forin<Tab> | erb: for .. in .. end... (forin) |
| ft<Tab> | erb: form_tag (ft) |

| | |
|-------------|--|

Python

Commands

| | |
|--------------------|-------------------------------|
| <Ctrl><Shift>V | Validate Syntax (PyCheckMate) |
| <Shift><Cmd>D | Debug Script in Terminal |
| <F3> | Documentation for Module |
| <Ctrl>H | Documentation in Browser |
| <Opt><Shift><Cmd>R | Run Project Unit Tests |
| <Shift><Cmd>R | Run Script (Plain) |
| <Cmd>R | Run Script (PyMate) |

Snippets

| | |
|----------|--------------------|
| def<Tab> | New Function (def) |
|----------|--------------------|

| | |
|------------|-----------------------------|
| get<Tab> | New Get Method (get) |
| class<Tab> | New Class (class) |
| ' | Inside String: Insert '...' |
| " | Inside String: Insert "..." |
| .<Tab> | self (.) |
| set<Tab> | New Set Method (set) |

Macros

| | |
|---------------------|-------------------------------------|
| <Shift><Cmd><Enter> | Move to EOL and Insert à€œ:à€? + LF |
| <Opt><Cmd><Enter> | Move to EOL and Insert à€œ:à€? |
| " | Inside String: Overtyping Closing " |
| ' | Inside String: Overtyping Closing ' |

JavaScript

Snippets

| | |
|----------|----------------|
| fun<Tab> | function (fun) |
|----------|----------------|

SQL

Commands

| | |
|--------------------|--|
| <Opt><Shift><Cmd>C | Copy Condensed SQL to Clipboard |
| <Ctrl>H | Documentation for Word (Search MySQL.Com) |
| <Ctrl><Shift>Q | Execute Line / Selection as MySQL Query |
| <Ctrl><Shift>Q | Execute Line / Selection as Postgresql Query |

Unix Shell

Commands

| | |
|---------------------|--|
| <Cmd>R | Run Script |
| <Ctrl><Shift><Cmd>X | Make Script Executable |
| <Ctrl>H | Documentation for Word / Selection (man) |
| <Ctrl><Shift>O | Open Terminal |

Snippets

| | |
|-----------|-----------------------|
| !env<Tab> | #!/usr/bin/env (!env) |
| elif<Tab> | elif .. (elif) |
| for<Tab> | for .. done (for) |
| if<Tab> | if .. then (if) |

Diff

Commands

| | |
|---------------------|---|
| <Ctrl><Opt><Shift>D | Document With Clipboard |
| <Ctrl><Opt><Shift>D | Selected Files in Project Drawer |
| <Ctrl><Opt><Shift>D | Selected Files in Project Drawer (HTML) |
| <Ctrl><Opt><Shift>D | Document With Saved Copy |
| <Ctrl><Opt><Shift>D | Merge Selected Files... |

Property List

Commands

| | |
|----------------|--------------------------------|
| <Ctrl><Shift>H | Convert to Old-Style ASCII |
| <Ctrl><Shift>V | Validate Syntax |
| <Ctrl><Shift>V | Preprocess and Validate Syntax |
